HAS A NEW SPOKEPERSON

Grew up listening to emo music and constantly
Inspired by the cinematic vibes of the 80s sonorities, Francis Jupiter is a 360 artist who knows how to
create a unique show made of energy and deep feelings.

The several years he spent busking full-time in the streets of London helped him craft his skills and strongly influenced his music. A blend of Indie-Pop and Anthemic melodies that'll surely conquer your hearts.

Now based in Italy, Francis keeps releasing his music while constantly performing live with his three-piece band and always trying to improve his brand and identity in the industry.

Think of a mix between THE 1975 and 30 Seconds To Mars and add those mystic tones from THE CURE and you'll get an idea of what this guy can create.
